the key? For example, buy RE0 HD Remaster one for $0.79 and another one for $19.99. A: From the online store, go to the "PlayStation" section. In the first row, there is a category called "SEGA Greatest Hits" (I have no other name for it). Look at the games you want and click on "buy." You'll find a box in the lower left of the screen, with a button you can click to see more details and a button you can click to buy. On the other hand, this video will help you understand. Q: Count number of occurrences in a column and populate new column I need to make a function that counts the number of occurrences in a certain column and adds a new column that shows that number. The output must be like this: I have tried this code in Python but I am getting this error message "AttributeError: 'DataFrame' object has no attribute 'isnull'" import pandas as pd import numpy as np import math def count_set(df, col): col_val = df[col] col_val = col_val.values arr = np.array(col_val) count = arr.count(arr) count = np.sum(count) return(count) df = pd.DataFrame({'col1':[1,2,3,4,5,4,3,2,1,4], 'col2':[3,4,3,1,2,1,1,1,3,2],'col3':[1,2,3,1,1,2,3,1,1,1],'col4':[5,4,4,2,2,4,3,5,5,5]}) df['count'] = count_set(df, 'col1') You need numpy.sum to count the items and change the count column. Try this: arr = np.array(82157476af
